

KENZALIA CLUBS UPDATE

All clubs, except Cardboard Engineering, will continue for the next half term. There will also be an exciting new club: Skateboarding. It will be run by a company called My Little Boarders who are a London based skateboarding club that specialise in teaching children aged 5-15 years old skateboarding in a fun and safe environment. See below for more details.

What's been happening?

- **Baking Club** have made banana muffins, cookies and cupcakes.
- **Woodwork club** have completed their toys with wheels.
- **Art Club** have been collaging, painting and colouring famous London landmarks.
- **Science Club** investigated the different parts of toys and created a range of sounds.
- **Book Club** read *The Star Outside my Window* by Onjali Rauf. A book that deals with a serious issue but is full of warm feelings and a warm, warm heart. Barnaby (5L).

Coming Up Next Term:

Baking Club will be making a range of tasty cakes and biscuits. Please note that recipes may be repeated from the Autumn Term.

Book Club will be reading *Evernight* by Ross Mackenzie.

Woodwork Club will be making children's stools.

KENZALIA CLUBS UPDATE

Skateboarding Club (Y2-Y6)

With specialist trained instructors, all equipment provided (wrist, elbow and kneed pads; skateboards and helmets) children will learn one of the most upcoming, diverse sports whilst enhancing their core balance / fine motor skills and participating in a fun and unique experience. This club is open to all levels of ability: beginners will learn the basics; intermediates will advance their skills to become more confident on a deck and advanced skateboarders will have lots of challenges ahead as they are taught a range of different tricks.

Mindfulness and Movement (Rec-Y2)

Movement and mindfulness classes will have different themes with stories-incorporating sharing circles, sound vibrations, mindful and creative movements and games to help children to express themselves, improve coordination, balance and strength. There will also be mindful activities, breath work and guided relaxation.

Woodwork Club (Y3-Y6)

The children will be using hand tools to construct a range of simple woodwork projects They will also work collaboratively to construct a larger group project for the embankment.

Book Club (Y5-Y6)

This club is for reading enthusiasts who enjoy sharing and discussing books. Mr McCann and the club members will choose the books they read which will then be provided to the children.

Gymnastics Club (Rec- Y2)

Children will learn floor and vaults gymnastics developing co-ordination, strength, balance and flexibility. *Children must wear PE kits.*

Lego Club (Rec- Y3)

Using activity ideas from the EYE organisation (Educating Young Engineers) children will be given basic engineering challenges to complete each week.

Art Club (Y3-Y6)

Children will be given a range of different projects to complete. *Children should bring an overall or old shirt to wear.*

Science Club (Rec- Y2)

Run by Mad Science which is the world's leading provider of science enrichment activities. They have over 30 years of experience delivering exciting science activities and last year delivered over 200 Science After School Clubs in London.

Homework Club

Children will have access to the computer suite and the library so will be able to complete Mathematics homework, research for projects or do any other homework that has been set.

Baking Club (Y3-Y6)

Children will be taught to make: a range of biscuits and cakes. *Children should bring a container to transport baking home in.*

Football Clubs (Rec-Y2) and (Y3-Y6)

Children warm up with exercises, practise skills and play competitive games.
