

# D.T. Knowledge Organiser: Slippers

Key question: How can I make an attractive and comfortable pair of slippers fit for purpose?

## Key Vocabulary

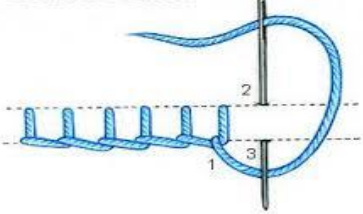

working drawing, pattern, template, seam, seam allowance, insulation, sole, upper, inner, reinforce, stitch, stitching, blanket stitch, hem

## Examples

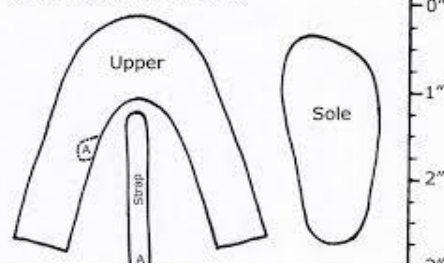

## Skills

Blanket stitch

Shoe Pattern for Narae43

## Considerations:

- Will the slippers fit comfortably?
- How can I ensure they do not fall apart?
- Do they look appealing and eye-catching?
- Which materials will be most comfortable/practical/durable?
- How will I ensure they do not fall off when wearing them?

Research professional slippers and evaluate purpose and audience.

Create initial designs considering the materials that will be needed.

Learn and practice techniques that will be needed to manufacture slippers.

Manufacture the slippers.

Evaluate the effectiveness and success of your slippers.
