Writing

Wednesday LO: to write a flashback

Here is the start of the flashback that I might write from my plan on Monday.

Captain James Moore stood happily on the deck of his ship: The Frederica. The weather was fine, with not a cloud in sight and there was a strong breeze excellent for making progress across the Atlantic. The ship was sailing true and well. If the weather stayed good, they would be back in Liverpool in three weeks and Captain Moore would be in for a bonus.

“Scrub that deck, gather those sails, clean those canons!” he shouted. Captain Moore always liked to keep his men busy. He was a notorious task master and was feared by all members of the crew. Suddenly, there was a call from a sailor in the crow’s nest. “There’s something ahead, in the water”. Captain Moore ran to the front of the ship. He saw a sight that terrified him...

Task: write the flashback. Try to introduce drama and excitement. Can you leave it on a cliffhanger?

Day 3 – Teacher questions

Remember to support all your answers for between the lines and beyond the text questions with evidence from the extract.

On the lines

1. Where was Lily at the beginning of the extract?
2. Where did Lily leave the building via?

Between the lines

1. In the paragraph beginning “Well,” Nick screwed his face...”, What impression do the words “When I say part” give?
2. How did Ahmed feel about going to the jewellers?
3. What do you think Lily plans to do at the bank?

Beyond the text

What do you predict might happen next in the story? Does this story remind you of any others?

- 1 When she felt the buzzer gently vibrating on her wrist, Lily put her hand up and asked to be excused from the lesson. Monsieur le Roux was displeased at the interruption but reluctantly gave his permission. Lily left the room swiftly and made her way to the nearest quiet place.
- 5 "What?" she whispered to her watch, trying not to inhale too deeply. The cleaning fluids on the shelves around her mingled with the musty aroma from the damp mops.
- 8 "It's Nick," said her watch. "Ahmed cracked the code in the message we found. It's definitely tonight. We think they're going to try to rob the jewellers. But we don't know who and we don't know how."
- 11 "I'm on my way," said Lily. Minutes later, she left the building via the basement so no-one would ask what she thought she was doing.
- 13 Back at headquarters, Lily looked at the message that Ahmed had decoded. "Alright," she said. "We may not know how or who, so let's think about what we *do* know."
- 16 "Well," Nick screwed up his face as he tried to remember everything he had found now. "Tonight is their annual party. When I say 'party', I expect it's lots of overweight old men in suits standing around and being polite to each other." He made a face. "But that means that the jeweller's doors will be open and no-matter how good the doormen are, when it gets busy, they can't always see who's squirming in around the edge of a crowd."
- 22 "Excellent." announced Lily. "If the robbers can get in that way, then so can we. And if we're caught, we'll say we were testing their security."
- 24 Ahmed gulped and nodded. He preferred to solve problems sitting at his computer. But if he was needed at the jeweller's he'd be there. He wouldn't let his team down.
- 27 "What else do we know?" asked Lily, turning to face him.
- 28 "They've had a suspicious visitor," he offered. "I sneaked a look at their CCTV recordings earlier. There was a customer wearing a long black coat roaming around the stockroom. That's odd in itself. But the visitor was particularly odd. He kept limping for a bit, then he'd walk normally, then he'd start limping again."
- 33 "Perhaps he only limps when his leg gets tired," suggested Lily.
- 34 "Yes, but that wouldn't explain why his limp swapped legs," replied Ahmed. "Anyway, not only did he have this strange limp, but he wore a hat with a very wide brim and whenever he was in sight of a camera, he looked down. His face was never caught on camera."

Foundation Work (for the week)

Topic– due Friday at 12pm

This week we are going to be researching how different creatures have adapted to life under the sea. When you open the task, click on the 'more' button which looks like a book to find out a bit more about the task. You will need to consider things such as what physical changes do the animals have to help them live under water e.g. over the years fish have adapted colour patterns to help them avoid becoming someone else's dinner (camouflage). You could also research what impact global warming is having on the ocean and what adaptations creatures have started to make because of this change.

Diary

Write a diary of what work and activities you did today. Remember to include your emotions and opinions.
