Morning Message

Good Morning!

Did you find reading the CVC words yesterday tricky? Today's phonics work will be to practise writing these words. Make sure that you start each letter in the correct place. You can use the letter formation sheet, from the Home Learning pack, to help you if you are unsure.

The maths work is about exploring shape. Gather together all the tubes you can find in your house. What can you use them for? Are they all the same size? Some might fit inside others, maybe you could make something from them all.

There are no right or wrong answers today, it is all about exploring and thinking. Can you do the activities independently?

Physical Development

Create a dot-to-dot on the largest piece of paper you have, or outside with chalk. Can your child join the dots together? Try to encourage large arm movements and crossing the midline in the body.

Adults, here is a link to a website explaining about the midline and the benefits of crossing it; www.ot-mom-learning-activities.com/crossing-the-midline.html

Maths

Tubes

Collect together tubes you have around the house. Toilet rolls, Pringle tubes, rolled up paper, plastic pipes, straws etc. Let your child explore them however they wish. They can roll them, stack them, use them as an instrument etc.

Key words:

wider, narrower, longer, shorter, fatter, thinner

Challenge

Can they use the tubes to transport water or a small ball? What difficulties are there? How can they overcome them? Can they connect two tubes together?

Topic /Cross Curricular /Around The House

Suggested Activities to try throughout the week

Learn more about polar bears www.bbc.co.uk/iplayer/episode/b01kvmbk/andys-wild-adventures-series-2-10-polar-bears Can you tell someone else everything you learnt?

Make a papier mache polar bear. I have included a link for a guide on papier mache.

www.bbcgoodfood.com/howto/guide/how-make-paper-mache

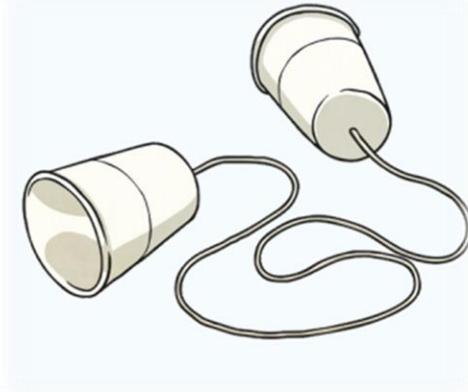

You will also need a balloon (or something else to cover), cardboard tubes, card, glue, white paint and black paint. You will need to make sure each layer dries before you start the next one.

Use the story describing cards from the Home Learning pack. When you give the clues, does your child know the story?

Find some yoghurt pots and string. Make your own telephone by making holes in the bottom of the yoghurt pots and thread the string through. When you are in different

rooms, make animal noises, can you guess which animal it is?

Try and eat a rainbow. What fruit and vegetables will you need for each colour? Cut them up with an adult and arrange them into a rainbow before you eat them.

Test each other's memory. Collect ten small objects from around the house and put them on a tray. Ask the other person to look away while you take away one object. When they open their eyes, can they guess what is missing?
