

## HOME LEARNING

Nursery

27/04/20

### Morning Message

Good Morning!

I hope you are all still healthy and well. If we had have been in school this week, we would have been looking at dinosaurs! So, I have included some fun dinosaur activities for you to try at home with your family instead.

The maths this week has changed and instead of numbers we will be focussing on space, shape and measures. The activities are different from what you may be used to but try your best and hopefully you will have lots of fun!

In your phonics practise, you will be trying to rhyme again. This practise will help you with your reading (in the future!) and to hear the different sounds in words.

Remember, if you do anything that you would like to share, then your parents can upload it to 2Simple and I will be able to watch/look at it from my home. Parents, the instructions for how to do this were sent to you via email when the last observations were uploaded on the 3<sup>rd</sup> of April. If you are still unsure, please do get in touch.

**Focus children this week: Dylan, Emil, Enzo, Florrie and Gabriel**

### Physical Development

#### Cars and pens

Tape felt tips with the nib facing downwards to toy cars. Place a large sheet of paper or roll of wallpaper on the floor and encourage the children to push the cars up and down to make marks. If you don't have cars at home, attach the pens to something that your child would be interested in moving around. Encourage them to make large movements with their arms.

## Singing and Action Songs

### Dinosaur song

Listen to this:

[www.bbc.co.uk/teach/school-radio/nursery-rhymes-dinosaurs/z6snmfr](http://www.bbc.co.uk/teach/school-radio/nursery-rhymes-dinosaurs/z6snmfr)

Follow the actions for the song and move around the room!

## Literacy (Writing/ Mark Making and Phonics )

### Mark making

Choose one bug colouring sheet from the Home Learning pack. Try to stay in the lines!

Next, practice name writing with laminate and white board pen. Encourage your child to start in the correct place of each letter.

### Phonics

Play a game of I Spy, but instead of begins with, say rhymes with. So...

“I spy with my little eye, something that rhymes with....”

Cat

Dog

Jar

Moon

Ted

Flick

You can make up your own and use longer words. If your child feels confident enough, then they could try to make their own.

## Maths

### Shape, space and measures

#### Google Animals AR

On a phone or tablet google an animal e.g. hedgehog, tiger, penguin and scroll down and click on the 3D view option. If you are unsure which animals you can use, simply Google “Google Animals AR” and the list of animals will be available!

Direct your child to stand on, under, besides, behind etc the animal. Take screen shots and show them to your child. You can take it in turns and they can tell you where to stand in relation to the animal.

## Topic /Cross Curricular /Around The House

### Suggested Activities to try throughout the week

If you can, play a board game together with numbers like snakes and ladders. Or if you have dice at home roll it and then you and your child can take it in turns to do that many claps, hops, jumps etc.

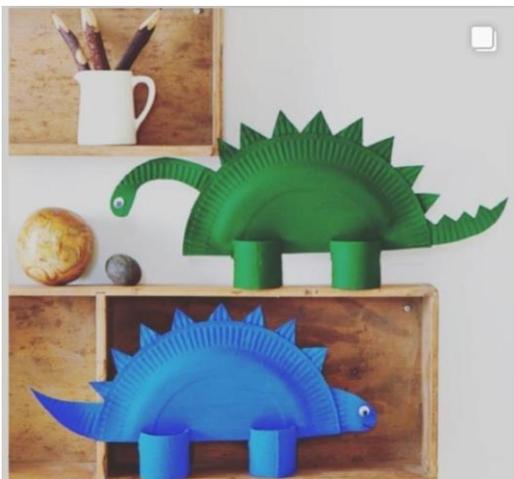

Freeze some found objects such as flowers, leaves, sticks, shells etc. Ask your child questions such as how could you melt the ice? How did they get stuck in the ice?

Do the scavenger hunt (from the Home Learning pack) again and put the answers into your Home Learning book. Have the answers changed?

Ask everyone in your family what their favourite thing about themselves is. What is your favourite thing about yourself? Help your child by writing down the answers for them.

Make a dinosaur out of junk modelling. Cardboard boxes and toilet rolls may be the most useful but use what you have. Let your child decorate their dinosaur however they like and display it!

Make dinosaur footprints in playdough/plasticine or salt dough. What could you use to make them? Could you make them bigger? Smaller?

Here is a salt dough recipe, or you could use your own:

[www.bbcgoodfood.com/howto/guide/how-make-salt-dough-recipe](http://www.bbcgoodfood.com/howto/guide/how-make-salt-dough-recipe)

Joe Wickes P.E. lesson on YouTube is a great way to keep everyone fit and active whilst at home! [www.youtube.com/playlist?list=PLyCLOpd4VxBvD7ogmmPLXYA1q0gFF3pe](https://www.youtube.com/playlist?list=PLyCLOpd4VxBvD7ogmmPLXYA1q0gFF3pe)

If they find these workouts a bit tricky, Joe also has some shorter videos that may be useful. [www.youtube.com/playlist?list=PLyCLOpd4VxBvPHOpzoEk5onAEbq40g2-k](https://www.youtube.com/playlist?list=PLyCLOpd4VxBvPHOpzoEk5onAEbq40g2-k)
