

HOME LEARNING

Nursery

29/04/20

Morning Message

Good Morning!

You will notice that you are singing some songs that we used to sing together in Nursery. All of these songs are helping you to remember important things that you will need in maths, reading, writing and in Reception! Keep practising them because they are important and as you already know them, you are experts in them!

The maths work today is different, you will have to try and describe directions. This is new, so do not worry if you are a bit unsure of what to do. Try to remember how you get to somewhere you normally would go. To the park, to the shops or even to Princess Frederica. Can you remember what you walk past? When you turn a corner? when you would cross a road with an adult? The more the practise, the easier it will be. If you are still unsure, an adult can talk to you about where you go and describe the important parts.

In the phonics work, you will need to find rhyming words for your name. Try to think of rhymes for the other people in your family as well. Remember that you can also use nonsense words if you have a tricky name!

I hope you are enjoying the nice weather!

Focus children this week: Dylan, Emil, Enzo, Florrie and Gabriel

Physical Development

Roads

Set up "roads" on the floor or a route through your home. You could use string, tape, ribbon or similar. Can they walk along and balance on them? Can they drive something along the roads?

Singing and Action Songs

Alphabet song

www.youtube.com/watch?v=jPVbJ-laHIw

Watch this video together. We had been singing this song together in Nursery, so your child should be familiar with it.

Please make sure they are making the same sounds as the video.

Literacy (Writing/ Mark Making and Phonics)

Mark making

Draw a picture of yourself. Use a mirror to look at your face, so you can see all the details. What colour are your eyes? Hair? Skin? You can use pens, pencils or paints to finish it.

Next, practice name writing with laminate and white board pen. Encourage your child to start in the correct place of each letter.

Phonics

Make up rhyming names and sentences for everyone in your family. E.g. I know a boy called Fred, he sleeps in a bed! Slim Tim.

Can they make their own rhymes? The rhyme for their name does not have to be a real word, if you find it hard to think of a suitable word then make up a nonsense word that still rhymes. E.g. Sophie bophie or Matthew patthew.

Maths

Space, shape and measures

When going outside, can your child describe or decide the route they want to take? Such as to the shop or park. This can be walking, on a scooter, on a bike or in the car.

Can they think of another way of getting to where you are going? What do you go past? When do you turn? And which way do you turn? Left or right?

Topic /Cross Curricular /Around The House

Suggested Activities to try throughout the week

If you can, play a board game together with numbers like snakes and ladders. Or if you have dice at home roll it and then you and your child can take it in turns to do that many claps, hops, jumps etc.

Freeze some found objects such as flowers, leaves, sticks, shells etc. Ask your child questions such as how could you melt the ice? How did they get stuck in the ice?

Do the scavenger hunt (from the Home Learning pack) again and put the answers into your Home Learning book. Have the answers changed?

Ask everyone in your family what their favourite thing about themselves is. What is your favourite thing about yourself? Help your child by writing down the answers for them.

Make a dinosaur out of junk modelling. Cardboard boxes and toilet rolls may be the most useful but use what you have. Let your child decorate their dinosaur however they like and display it!

Make dinosaur footprints in playdough/plasticine or salt dough. What could you use to make them? Could you make them bigger? Smaller?

Here is a salt dough recipe, or you could use your own:

www.bbcgoodfood.com/howto/guide/how-make-salt-dough-recipe

Joe Wickes P.E. lesson on YouTube is a great way to keep everyone fit and active whilst at home! www.youtube.com/playlist?list=PLyCLOPd4VxBvD7ogmmPLXYA1q0gFF3pe

If they find these workouts a bit tricky, Joe also has some shorter videos that may be useful. www.youtube.com/playlist?list=PLyCLOPd4VxBvPHOpzoEk5onAEbq40g2-k
